***The following information is for parents to help us make your lesson a safe and enjoyable experience:***

- Children **DO NOT** enter the School without their parent or guardian, and are supervised at all times. Regardless of the skill level, no child is completely safe around water, and should never be left unattended.
- Your child **DOES NOT** enter the pool until instructed by the teacher. We ask that young children remain seated with their parent or guardian until the class commences
- Children **ARE NOT PERMITTED** to use the swimming pool facility for **recreational swimming**, and **MUST ONLY** be in the pool for the period of swimming tuition under direct supervision of one our qualified instructor/s.
- You are present at the pool side on completion of your child's lesson, so you can accept full responsibility for their care
- If your child needs to go to the toilet during the class please notify the teacher prior to leaving, and re-entering the pool. If time allows toilet your child prior to the lesson to minimize disruption to the class
- No running or eating in the pool area / complex
- You notify us of any medical conditions or injuries short or long term, as they may affect your child's swimming. It is important these details are kept up to date
- Your child does not attend swimming if they have an open wound, are unwell, have a fever, sore throat and/or cold/flu like symptoms
- If your child has infectious diarrheal (*ie. Cryptosporidium*) illness they **MUST NOT** use the pool for 14 days after symptoms have ceased
- Medication for medical conditions such as asthma should always be brought to the centre with your child
- Asthma SA recommends that you administer reliever medication 5 – 10 minutes prior to physical activity. If your child requires their reliever medication during their class they must exit the pool to take their medication, and allow 5 minutes for the medication to work before going back in the pool
- Parents are encouraged to discuss any issues with our swim school staff that are relevant to their child's swimming, behavior or emotional state. Any of these issues may be relevant to any special care they need
- Smoking is not permitted in the building or surrounding areas

***This is to certify that I have read and agree to the terms and conditions listed on this form***
